Professional Summary

I'm a passionate Software Developer with a solid educational background and hands-on experience in user interface design, application development, data security, and continuous improvement. I love identifying opportunities to enhance user experiences and developing new features to make applications more functional and user-friendly. I'm adaptable and eager to learn new languages and technologies, always striving for continuous growth and professional development.

Key Skills

- **Programming Languages:** Python, Java, C++, JavaScript/TypeScript, PHP, C#, HTML
- **Frameworks & Technologies:** React, ASP.NET (Core) MVC/WebAPI, .NET
- **Development Practices:** Agile Development, Scrum, Software Development Lifecycle (SDLC)
- **Tools:** Git, Docker, Kubernetes
- **Areas of Expertise:** Feature Development, Application Development, Continuous Improvement, Data Security

Professional Experience

Disability Support Care Worker

Healthcare Australia

July 2023 to Present

- Supported clients with complex mental health, physical, and intellectual disabilities in both home and community settings on a 1:1 basis.
- Ensured the well-being and safety of individuals through personalized care and support.
- Developed strong communication and empathy skills, enhancing the ability to work effectively in diverse team environments.

Disability Support Care Worker

SDS CARE

July 2022 to August 2024

- Provided support and care for individuals with disabilities, ensuring their well-being and safety.
- Developed strong communication and empathy skills, enhancing the ability to work in diverse teams and environments.

Academic Projects

ICT Project Management Tool (Final Year ICT Capstone Project)

University of South Australia | 2023

Role: Project Contributor, Frontend and Backend Developer, Database Developer, Web Developer

Description: Developed an advanced web-based project management tool to enhance the allocation and management of IT projects for UNISA final-year students. This project included creating both an internal ICT tool and an external public website to streamline project-related activities and improve stakeholder communication and productivity.

Key Contributions:

- Authored sections on Executive Summary, Project Purpose/Justification, Business Objectives, Project Description, Project Deliverables, Use Cases, Functional Requirements, and System Requirement Prioritization.
- Designed the system to support bulk data entry using CSV files, data updates, project information retrieval, and targeted email communication.
- Ensured the tool provided a user-friendly interface for students to view projects, clients to input project details, and course coordinators to manage project information.
- Focused on improving data accuracy, project tracking, and communication efficiency.

Personal Projects

- **Subscription Management Application (Python):** Developed an application to enable users to track and manage subscription services, including features to compare service costs and analyze monthly and annual expenses.
- **Tourist Spot Filter Mobile App (JavaScript):** Coordinated with a team to design a mobile application that allowed users to filter local tourist spots and restaurants during domestic travel.
- **University Responsive Multi-Page Website (HTML, CSS & JavaScript):** Created a responsive, multi-page website for university projects, demonstrating proficiency in front-end web development.

Education

ACS PROFESSIONAL YEAR PROGRAM

Academy IT, Adelaide

September 2024 - Present

Bachelor of Information Technology (Software Development)

University of South Australia, Adelaide | Completed: 2023

- **Key Courses:** Agile Development and Governance, Web Technology, ICT Capstone Project, Design Patterns with C++, Database for the Enterprise, Big Data Concepts

Diploma in Software Development

TafeSA, Adelaide | Completed: 2021

Certificate IV in Programming

TafeSA, Adelaide | Completed: 2020

GCSE

Redeemers High School, Nigeria | Completed: 2017
